-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claim 17 rejected under 35 U.S.C. 102(e) as being anticipated by Zehavi (US 6,990,082).

Regarding claim 17, Zehavi teaches a unitary, multiple interface radio terminal operating simultaneously with different transmission protocols (fig. 1 box 100, col. 3 lines 19-25) over a common frequency range on parallel channels (Bluetooth, IEEE 802.11, col. 4 lines 48-55). Note, Bluetooth and IEEE 802.11 operate in the same frequency range, as shown by applicant's admitted (pg. 1 lines 9-12).

Zehavi teaches a CPU core for receiving connection requests for packets to be transmitted in the common frequency range (fig. 1 box 106, col. 3 lines 29-42).

Art Unit: 2666

Zehavi teaches a first radio interface for supporting radio transmission within common frequency range over an associated first channel by a first transmission protocol (fig. 1 see connection from box 103 to 108A, Bluetooth, col. 4 lines 48-51).

Zehavi teaches a second radio interface for supporting radio transmission within said common frequency range over an associated second channel by a second transmission protocol distinct from said first transmission protocol (fig. 1 see connection from box 103 to 108B, IEEE 802.11, col. 4 lines 52-55).

Zehavi teaches a selector coupled to the CPU core for routing said packets to be transmitted to one of said first and second radio interfaces (fig. 1 box 106, alternate between transmits in a selected one of the two wireless protocols, col. 3 lines 38-42).

Zehavi teaches an interface manager connected to said CPU core and said selector and responsive to a connection request for determining the routing of said packets by said selector to said first or said second channel for transmission with said common frequency range (fig. 1 box 106, alternate between transmits in a selected one of the two wireless protocols, col. 3 lines 38-42).

Response to Arguments

3. Applicant's arguments with respect to amended independent claim 17 have been considered but are moot in view of the new ground(s) of rejection.

Allowable Subject Matter

4. Claims 18-20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 2666

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
